## ARMY AND NAVY NEWS

(FROM THE TRIBUNE BUREAU.)  
Washington, July 4.  
WORK OF ARMY SURGEONS.—Major E. C. Carter, of the army medical department, well known in New-York and now en route to the United States from Manila, will be assigned to duty as post surgeon at Fort Leavenworth, Kansas, where he will also have the care of hygiene at the staff college at that post. This is the most important of the medical billets to which a major of that grade can be assigned. The distinction accorded Major Carter is at the instance of Secretary Taft, who was greatly impressed with the major while Mr. Taft was Governor of the Philippines, at which time Major Carter was Commissioner of Public Health at Manila. In that capacity he rendered invaluable service, and has received the special commendation of the Secretary of War for the preservation of the health of the community. Major Carter will first come to Washington, where he will consult with the surgeon-general, and after a brief rest, will go to Fort Leavenworth. Another army surgeon who has been doing excellent work is Captain B. K. Ashford, assistant surgeon, a native of the University of Georgetown. Captain Ashford has done much to improve the health of the island of Porto Rico, where he has been for several years. The work of the doctors was seriously impeded by the prevalence of the island physician, and the ignorance of the natives, but by dint of hard work, much patience and practical demonstration of the good effects of the medicine, and now has more than ten hundred patients have presented themselves for treatment. With all the experience of the native physicians none of them was able to determine just what the disease was, and how it might be treated. It was taken a young medical officer of the army to bring this about and to gain information bound to be of the utmost benefit to Porto Rico.

## CHINA'S GREATEST NEED.

General Homer Lea Says Country  
Must Be Nationalized.

Since the arrival here of Kang Yu Wei, grand head of the Chinese Empire Reform Association, there has been considerable speculation regarding the Chinese regiments which are drilling in several cities of the United States. That these Chinamen expect to return to China to engage in a revolution has been denied, but the purpose of the reform movement has never been clearly stated.

General Homer Lea, commander in chief of all the Chinese regiments drilling in this country, in an authoritative statement made to a Tribune reporter at the Waldorf last evening, said the Chinese Empire Reform Association numbered from eight million to ten million Chinamen, who were drilling in some thirty cities of the United States. The general, continuing, said:

I am educating many of these men to become officers. If the government of China should ask me to-morrow for competent officers, I should recommend these men. I have set out to help China. I have seen her ancient rights. It is fundamental to me who is at the head of the Chinese government. If the Chinese government should ask me to help China, I should give aid as freely to her as to the young Emperor.

I am not governed by any political party in China. The Dowager's party has felt that I was acting against the wishes of the government, which is not the truth. I believe, however, that the restoration of the young Emperor would bring about the appointment of Ministers better able to maintain a strong government, but if China under its present government should ask for help these men at my command would respond. Their wishes are my wishes.

China should become a nation, not a group of provinces. Her finances and her army should be controlled by a central government. China has only a provincial army. In fact, there is nothing national in China. The future of China depends upon this object she must have a true national army. This army will not only enable her to maintain her empire, as well as to stand up to the aggressions of Russia, Germany and France.

China should not tolerate the political corruption that exists in China to-day. I have given officers to these troops at my own expense. The only object I have in mind is to help China. I have been working for the good of this, my own, country. America should not allow China to be cut up and its trade destroyed, because in one stroke she brings America more trade than the Philippine Islands.

The present government of China is becoming more progressive each day, and it is realizing what may be accomplished by the nationalization of China. The young Emperor were restored he would bring about all these reforms.

China cannot be redeemed by a revolution. That would mean the weakening of all her resources. To China no disaster could be greater than a revolution.

General Lea stated that in forming these regiments he had acted upon his own initiative and was responsible to no person or party.

The general thought it would be a blessing to the whole world if the powers should ask the Emperor Dowager to resign.

## MORE ROOM FOR NAVAL Y. M. C. A.

Miss Helen Gould Purchases Land for Addition to Brooklyn Institution.

With the idea of eventually building an addition to the building of the naval branch of the Young Men's Christian Association, at Sands and Charles sts., Brooklyn, Miss Helen M. Gould has purchased the adjoining property, at No. 157 Sands-st. The lot is 50x100 feet.

It was said yesterday that the report that she was to build at once was erroneous, but advantage was taken of a favorable opportunity to buy the land at this time. The enlargement of the navy has been responsible for the mobilization of a much larger number of ships at the yard than ever before, and the Young Men's Christian Association needs more secure accommodation. It is possible to accommodate about three hundred men now, but hundreds are turned away every night, and last Saturday night a thousand sailors were unable to get in. In addition to more sleeping rooms, a gymnasium will be one of the features of the annex.

## MRS. MAIER'S DEATH NATURAL.

Pursuant to instructions from Coroner Scholer, Dr. Philip O'Hanlon performed an autopsy yesterday on the body of Mrs. Helen Maier, of No. 1,728 25-ave., and found that she died of natural causes, superinduced by insanity. The woman died at the Manhattan State Hospital last Saturday, four hours after her admission. Dr. O'Hanlon said that the wounds and abrasions on the body were all superficial.
